**(a) The declaration of quorum by taking attendance.**

- Quorum declared by the chair.

**(b) Minutes of the previous meeting.**

Minutes were accepted.

**(c) Matters arising from the minutes.**

No matters were arising from the minutes.

**(d) Motions on notice**

**- Blood Donation**

**CR** - In Ireland you are banned from giving blood if you are a man who has had sex with another man. Basing issues which aren't just subject to a gay man means that the actual ban doesn't achieve anything as you can still lie. I'd like to mandate the Union to take a stance on the issue.

**SB** - Could I propose an amendment to add 'sexually' before the 'active gay men'?

**MDS** - I would propose another amendment ' However the fact a (person...)'.

*Amendments Passed*

**ED** - The facts are in the blurb, as seen in a medical light the prevention is due to safety.

**SB** - A lot of research is being done to find a new way at looking at sexual behaviours in relation to giving blood because if two partners are having sex but both are free from HIV

they should be allowed to give blood.

**JK** - The ban exists due to health risks.

**LK** - A lot of people in straight relationships have HIV so why should we exclude anyone with regards to sexuality.

**VOTE:** Passed.

- **Rescind of previous motion**

**Chair** - Previously it was not possible to put a motion forward to rescind another motion just passed in the council before.

**CR** - I do not wish to rescind the spirit of the motion. However, the motion previously mandated to bring the flag to events where appropriate and that is what I want to change. Equality of everyone in the Union should come before views as not every member of the Union should be expected to agree.

**TW** - I wish to propose 9n (question not be put).

**CW** - Seconded.

**TW** - Amendment was praised in college so why would you allow the media to pick at the SU?

**CR** - The majority of the media attention was due to the topic of marriage equality. We should not be alienating people we are trying to help.

**TW** - Yes I agree but I believe it should be only when it suits.

**CW** - Bear in mind we are going straight into a rescind, more effort should be put in so that rescinds will not be a common occurrence.

**GW** - I understand that the motion was passed but a lot of people were not happy with the wording. It was passed because it we were under time pressure and needed to start campaigning.

*9n Opposed*

**ÉÓB** - I can't think of any event in which the flag would not be appropriate as it represents equality.

**VOTE:** Passed

- **Marriage Equality**

**CR** - Just to confirm that we will have this stance and that we will support promotion for marriage equality.

**TW** - That is contradicting.

**ÉÓB** - With reference, any person organising an event is responsible for ensuring the flag is present, it is in order to create accountability.

**MH** - Does this include all societies?

**Chair** - It only includes the Union.

**VOTE:** Passed

- **Class Reps**

**CR** - This motion will officially recognise the Class Rep of the Month award.

**ÉÓB** - Propose an amendment; take out 'Council Also Mandates' paragraph as this is childish and unnecessary.

**AC** - It doesn't say we have to frame and hang it up.

**CF** - Propose and amendment; remove 'unless they have permission from the class rep'.

**SG** - Include that if a student misses Council on more than three occasions.

**Chair** - We will discuss that after.

*Amendment defeated.*

**SVH** - What is the selection process?

**CR** - I will talk to you after Council or I can take it in AOB.

**TW** - Change Council Also Mandates section to 'corridor with permission from Class Rep'.

*Amendment passed.*

*9a proposed.*

**VOTE:** Passed

## - **Drug Pricing**

**MK** - Legislation has been passed to make generic drugs more readily available and cheaper across the counter which helps us move in line with the rest of the world. Chemists get savings from the brand which they don't pass on.

**DME** - I've been to the UCD Pharmacy and they always suggest the cheaper alternative and I don't think this motion will make a difference.

**MK** - That is valid but it is up to the Chemist/GP/Patient whether they use specific brands but chemists are still not passing on the savings.

**ÉÓB** - I feel that they are already doing what the motion is setting out to do.

**CR** - There is potential that or certain drugs that this will just endure that everyone is getting the saving.

**MDS** - How will the Welfare Officer and President make sure these cost savings are taken on board?

**MK** - I didn't want to use lobbying I just wanted for you to make sure they pass on the savings.

**BT** - Cheap alternatives are already being suggested so there is no point interfering in the free market with other businesses.

**GW** - I want to counteract the previous speaker as it is not a valid point.

**MG** - How can we discuss and make an informed decision when we don't have the facts?

**Chair** - Great point and it should be taken on board.

**SG** - No evidence was given so why not request some facts and let the market react?

**ÉÓB** - Could we defer this motion to next council? We do not have any stats and people aren't informed!

**MK** - They don't have to give us the information so it will be hard but I would still like the President and Welfare Officer to work with the Student Centre.

Motion Deferred to next Council.

#### - **Mental Health Coordinator**

**MDS** - The campaigns forum exists in order to look after different aspects of student health and wellbeing, this is why it is very important for this motion to be passed.

**Chair** - Nobody wants to speak against so we will put it to a vote.

**VOTE:** Motion Passed.

#### - **Vending Machine**

SD gave a brief description of the motion.

**TW** - How would you propose getting a vending machine?

**SD** - I'm not entirely sure but we could look at moving one which isn't being used where it is at present.

**MG** - Not sure that this is practical, there must be a reason why it is not already there?

**SD** - I spoke to the Head of Computer Science and he is in favour.
