DONAL MONAHAN

FOR
ENGINEERING
OFFICER

WHO'S THIS CLOWN?

My name is Donal and I'm a third-year Electrical and Electronic Engineering student from Dublin. In my time at UCD, I've been a **Class Rep**, a **Peer Mentor** and a member of the Engineering **Programme Board** and the Engineering **Staff/Student Committee**. I understand that Engineering can be exhausting and, at times, soul-destroying. As College Officer, I will work for all Engineering students to ensure the College treats us fairly and that we can enjoy our time at UCD as much as possible. **See inside for my manifesto.**

VOTE NO. 1

2 - 4 APRIL

MY MANIFESTO

WHY AM I RUNNING?

I'm running to support Engineering students. Our course comes with long hours, a heavy workload and often disappointing resources. As College Officer, I want to work with Class Reps to coordinate efforts to make life easier while we're at UCD. I also want to continue to improve SU engagement, to foster a stronger union, from which we will all reap rewards.

WHY SHOULD YOU VOTE FOR ME?

I am a **massive nerd**. I love to stay organised, attend meetings, and take notes. It's what I already do as a Class Rep. Now that I have the **experience** of having dealt with faculty through meetings of boards and committees, I have the **confidence** to bring your **fight** to them, and to come back with **results**.

ACADEMIC SUPPORTS

- Improved lab and tutorial supports
- Fully comprehensive Brightspace resources
- Sample solutions and marking schemes for all coursework

FACILITIES

- Dedicated collaborative work spaces and quiet study spaces in Engineering
- Charging sockets in lecture halls

STUDENT EXPERIENCE

- Autumn semester reading week
- Curriculum review and module reordering
- Frequent meetings to hear from all class groups
