## SO WHO AM I?

Let's cover the basics: I'm Jan "Jamo" Hatje (he/him). I'm 22 years old, moved here from Germany, and I'm studying Economics & Politics in my 2nd year.

You'll probably see me a lot around campus, attending events or cramming in the library. I spend most of my life around students, engaging with UCD - and that's exactly why I want to work to make it better. I want to make UCD a <u>community</u> that listens to and supports you.

JAMO HATJE

FOR SOCIAL SCIENCES
COLLEGE OFFICER

BECAUSE *YOU*
MAKE THE *UNION*

As SocSci college officer, the **student voice** is my highest priority. Students around me often complain that they barely know about the union- which makes it hard to feel represented.

My work will focus on the **connection from union to the student:** gathering **feedback** to ensure the union works for **what you want**. I will collaborate with other officers to make a union that is **visible in supporting you-** one that fosters **community**.
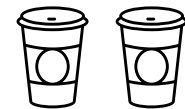

I WILL WORK FOR:

CONNECTION

- Build **channels of communication** between the union and you
- Campaign for more **student feedback** on the union
- Personal **office hours** as your social science college officer

TRANSPARENCY

- What is the union? **Inform students** of union activity
- **Improve communication** from class reps to their courses
- Improve awareness of **student supports** so you can get help where you need it

COMMUNITY

- Build **spaces** for social science **socialising**! For breaks, venting, studying or helping your peers
- **Work as one**: Campaign together with other officers to make sure our voice is heard
